

A fast, evidence-first triage

01 Recommendation + dual score

Proceed • ECS 5.7 / ERS 4.3 • medium confidence — capability and risk on one ruled 0–10 scale.

02 Nine-index mini scorecard

SMI • CPI • NHI • PFC • CMR • LC • T&A • IC • DVI, each with score, confidence and a signal rationale.

03 Seven canonical factors

Coverage and signal direction per factor — key public evidence separated from execution implication.

04 Risks, strengths & unknowns

Ranked risks with counter-signal and confirm/disconfirm tests, plus 10 testable questions to validate next.
